Education

BOĞAZİÇİ UNIVERSITY

Istanbul, Turkey

Industrial Engineering. GPA: 3.33

Graduation: 06.25

Thesis: Designing a Pattern-Based Clustering Approach for Dynamic Simulation Output

Relevant Coursework: Information Systems and DB Management / DES / ABM / Systems Science & Simulation / Nonlinear, Linear, Integer & Stochastic Optimization / Machine Learning / Forecasting & Time Series Analysis / Process Monitoring / Project Management, Money and Banking, Risk Assessment, Financial Cost and Accounting, Engineering Economics / Law 1

Certificates: Effective Speaking, Web Scraping in Python, Introduction & Intermediate SQL, Understanding ChatGPT

Experience

TURKISH FURNITURE MARKET

Kampala, Uganda / Istanbul, Turkey

Founding Manager

June 2023 – Current

- ❖ Led end-to-end operations for a luxury furniture and interior design company, including full-stack catalog website development, responsive UI/UX design, legal documentation, and product database management.
- ❖ Established and optimized a production workshop in Kampala using lean manufacturing principles, managing 25+ employees and international procurement/export operations across East and Central Africa.
- ❖ Designed and delivered 12 high-end residential projects, managed investor relations, and created brand, sales, and social media assets contributing to multi-million-dollar revenue growth.

TRADETURK

Istanbul, Turkey

Operations Manager

January 2023 – Current

- ❖ Managed international sourcing, inspection, logistics, and export operations for Turkish goods across 30+ countries.
- ❖ Developed a responsive live-data B2B platform and coordinated sales, marketing, supplier, and client relations across Sub-Saharan Africa and the Arabian Peninsula.
- ❖ Established an independent commodities trading branch focused on coffee and sugar exports, targeting 450+ container shipments by the end of 2026 while expanding into energy and small machinery trade partnerships.

IDA PROCESS CONTROL AUTOMATION

Istanbul, Turkey

IT Intern

July 2024 – September 2024

- ❖ Developed multi-language programs for sensor data acquisition, interpretation, and storage.
- ❖ Designed a complete SCADA interface for factory automation.
- ❖ Developed skills in network configuration, DB management, and project design methodologies.
